

Athlete development matrix

Active start

Stage

Gym Tots
& Pre-school

Female & Male
2-5 years

Yellow

Principles

Through age-appropriate activities and adapted equipment, athletes are introduced to the fundamental movement patterns: landings, static positions, locomotion's, rotations, swings, springs, and object manipulation.

This stage provides athletes with a movement base that will support lifelong enjoyment and participation in almost any sport or physical activity.

Programming

Gym tots & Pre-school programs follow the Winstrada curriculum

Class length

Gym Tots
45 mins
1 time per week

Pre-school
60 mins
1 or 2 times per week

Term times

Founders term
April 10th to
July 4th 2023

Term 1
August 28th to
December 17th 2023

Term 2
January 2nd to
March 24th 2024

Term 3
April 15th to
July 7th 2024

System of competition

There is no competition in the Gym Tots & Pre-school environment

Performance measures

Development of gross motor skills agility, balance, coordination, strength and flexibility, cognitive abilities, emotional and behavioural stability, and social skills

Life skills

Participants develop group social skills (interaction, sharing, cooperation, helping, and taking turns), self-esteem, confidence, independence, and self-expression

FUN'Damentals

Stage

Fun & fitness
Recreational

Female & Male
5 years

Red

Principles

Athletes continue to develop and master the FMPs in a multi-discipline gymnastics environment and begin to learn gymnastic skills.

This stage provides athletes with fun, well-structured, and progressive programs that allow them to develop skills that are beneficial for any recreational or competitive sport or physical activity

Programming

Recreational programs follow the CanGym curriculum

Class length

60 mins
1,2 or 3 times per week

Term times

Founders term
April 10th to
July 4th 2023

Term 1
August 28th to
December 17th 2023

Term 2
January 2nd to
March 24th 2024

Term 3
April 15th to
July 7th 2024

System of competition

Mini-displays and performances for parents and other gymnasts

Performance measures

Further development of motor/physical qualities (including speed, power, endurance), cognitive abilities, emotional and behavioural stability, and social skills

Life skills

Athletes develop social skills (relationship-building, cooperation, communication, and leadership), confidence and self-esteem, task-focus and a desire to learn, and an acceptance and appreciation of gym rules and sportsmanship

Learn to train

Stage

Building the skills of gymnastics
Advanced recreational
& Mini squad

Female & Male
5+ years

Red

Principles

Athletes continue to develop and refine their agility, balance, coordination, and flexibility, and begin to master basic skills on apparatus; the focus is on the development of gymnastics skills and overall sport skills.

By the end of this stage, athletes should have sound skills which will allow for continued progression and success in gymnastics and/or an easy transition to other sports

Programming

Advanced recreational programs and Mini squads follow the CanGym intermediate curriculum

Class length

Advanced recreational
120 mins
1 or 2 times per week

Mini squads
90 mins
2 times per week

Term times

Founders term
April 10th to
July 4th 2023

Term 1
August 28th to
December 17th 2023

Term 2
January 2nd to
March 24th 2024

Term 3
April 15th to
July 7th 2024

System of competition

Internal competitions with the goals of introducing the process and format, and allowing athletes to enjoy performing their routines without a focus on comparative results

Performance measures

Refinement in quality of movement and continued development of physical capacities, athleticism, cognitive abilities, emotional and behavioural stability, and social skill

Life skills

Athletes develop social skills (relational and communication skills), confidence, concentration, and more advanced cognitive abilities (problem-solving and decisionmaking skills)

Train to train

Stage

Specialization in gymnastics
Foundation & Development

Female & Male
6+ years

Purple

Principles

This is one of the most important periods of motor development for gymnasts and a window of accelerated adaptation to skill training.

All key gymnastics skills should be mastered during this stage and discipline-specific skills will be developed

Programming

Foundation and Development programs follow the compulsory USAG Gymnastics programs and F.I.G Age group development program

Class length

Foundation
120 mins
2 or 3 times per week

Development
150 mins
2 or 3 times per week

Term times

Founders term
April 10th to
July 4th 2023

Term 1
August 28th to
December 17th 2023

Term 2
January 2nd to
March 24th 2024

Term 3
April 15th to
July 7th 2024

System of competition

Competition at this stage will include results and rankings, however the goal is to develop strategies for success in competition with focus on ability & performance measurements

Performance measures

Progressive development of complex skills and physical abilities, with particular focus on flexibility and injury prevention

Life skills

Gymnasts learn time management, life balance, and performance anxiety; they demonstrate dedication and commitment to training and increased cognitive and psychosocial development

Train to compete

Stage

Becoming a consistent competitor
Pre-Elite

Female & Male
9 years

Gray

Principles

These are years of investment in which the athletes become solely committed to gymnastics, is focused on achieving an elite standard, and builds a close relationship with the coach.

At this stage, gymnasts have consolidated the basic skills; they are developing and refining more advanced and complex skills/routines and are learning how to compete under a variety of conditions

Programming

Pre-elite follows the compulsory & optional USAG & F.I.G programs

Class length

Pre-elite
180 mins
2+ times per week

Term times

Founders term
April 10th to
July 4th 2023

Term 1
August 28th to
December 17th 2023

Term 2
January 2nd to
March 24th 2024

Term 3
April 15th to
July 7th 2024

System of competition

At this stage, gymnasts strive for consistent high-quality performances in regional, national, and possibly International competition.

The focus is on gaining experience and learning to cope with and adapt to the challenges of travel

Performance measures

Development of more advanced skills along with increases in artistry and creative expression; and continued focus on flexibility during this stage of physical growth, as well as strength and aerobic capacity

Life skills

Gymnasts learn to manage distractions, and gain independence in decision-making; the proper environment will foster positive body image, self-esteem, and confidence

Train to win

Stage

Elite

Female 11 years
Male 13 years

Black

Principles

Gymnasts in this stage are optimizing their performance according to the goals they have set for themselves; they have well-developed abilities to perform on demand and are more results-driven than in previous stages.

At this stage, competition becomes more important with training time divided between preparing for competition and learning important new skills

Programming

Elite programs follow the optional USAG 9&10 programs and F.I.G FIG- HP program for International competition standards

Class length

Elite
240 mins
6 times per week

Term times

Founders term
April 10th to
July 4th 2023

Term 1
August 28th to
December 17th 2023

Term 2
January 2nd to
March 24th 2024

Term 3
April 15th to
July 7th 2024

System of competition

These gymnasts are competing to win titles at the national level; some artistic gymnasts may choose to specialize on certain events in this stage.

Gymnasts at this level begin to establish their national & international reputation

Performance measures

Refinement and consolidation of most advanced skills, aiming for the highest standards of difficulty, composition and performance

Life skills

Gymnasts fully develop a range of mental skills including relaxation, concentration, positive self-talk, and emotional regulation; skills that not only positively impact competition performance but also contribute to moulding well-rounded individuals
